STEP ONE:

Force spins to generate 9 **unique** numbers (These will be known as “sidebar numbers”)

STEP TWO:

Enter the 9 **unique** numbers into the IPro Syllabus to generate prediction numbers. **IMPORTANT** - If no more than 1 PrC wheel lights up green, proceed to step 3. If 2 or more wheels light up green, start over from step 1.

If the wheels look like below after entering all sidebar numbers, you may continue:

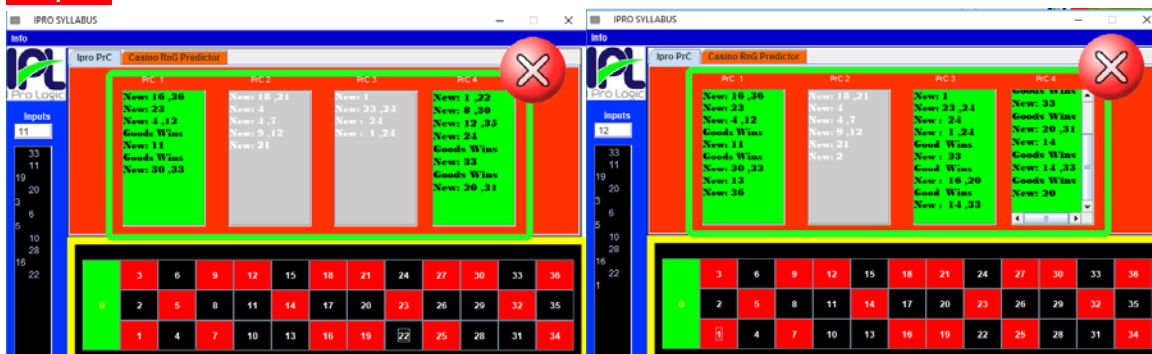

9 Number Strategy

If the wheels look like below after entering all sidebar numbers, start back from **Step 1:**

STEP THREE:

Bet the sidebar numbers as well as the prediction numbers

IF YOU WIN	IF YOU LOSE
<p>Option 1: If you win, close the wheel and reset and start the sequence over again</p> <p>Option 2: If only a sidebar number hits, enter the number that just hit into the syllabus and bet only the numbers from the wheel until you win.</p>	<p>Enter the number that just hit into syllabus to generate a new prediction and add both numbers to the original bet and spin again</p> <p>Repeat this step until you win</p> <p>Increase your bets according to the IPro Calculator</p>

STEP FOUR:

Once you have reached your profit target, close the wheel and take a break
